

Description

*4×10G optical port sending card, with a maximum load of 20.8 million pixels, a maximum width of 16384 pixels, and a maximum height of 16384 pixels

*Supports independent mode, replication mode and master-standby mode

*With single-mode optical fiber module, support a maximum transmission distance of 10km

Specification

Interface Type	Optical Interface
Number of interfaces	4
Output signal	Optical Interface
Power consumption	39W
Board type	Plug-in card
Dimensions	193mm*21.15mm*247.12mm
Weight	0.5kg
