

Weatherproof Horn Speaker

TF-2026CD

Material: Aluminium housing and plastic back cover

Features:

*Wide frequency domain waterproof speaker with unique appearance design, composed of aluminum housing and plastic back cover structure, high power, strong sound penetration and wide coverage.

*Built-in high-performance copper wire audio transformer, which can reduce losses caused by impedance in the circuit and has multiple power options.

*The upper and lower angles can be flexibly adjusted to facilitate user operation and installation.

*Suitable for square, railway station, etc.

Specifications:

Model	TF-2026CD
Rated Power(100V)	25W, 50W, 100W
Maximum SPL	134dB±3dB
Maximum Power	200W
Impedance	COM /400Ω/200Ω/100Ω/ 50Ω
Frequency Response (-20dB)	80Hz -20KHz
Sensitivity (1W/1M)	114dB±3dB
Dimension	485×500mm
Weight	4.6Kg
IP Rate	IP66
