

Description

Suitable for hotels, shopping malls, supermarkets, leisure and entertainment places and background music system applications.

Description

*It is made of high quality engineering plastics injection moulding .

*It uses a 4-inch full-range speaker unit, with clear vocals and excellent mid-frequency performance .

*Built-in anti-magnetic saturated 70/100V transformer, professional black and red wire clamps, convenient and quick wiring .

*No need to drill holes for Surface mounting, convenient and quick .

Specification

Rated power (100V)	3W
Rated power (70V)	1.5W
Impedance	Black: COM Red: 3.3KΩ
Frequency response (-10dB)	110-16KHz
Sensitivity (±3dB)	92dB
Maximum sound pressure level (rated/peak)	97dB/103dB
Speaker unit	4"×1
Dimension	180×70mm
Weight	0.6kg
