

Horn Speaker

T-750AZ

Feature

- * Waterproof design, simple and beautiful overall appearance.
- * High-quality plastic material, excellent mechanical properties, good impact strength, low temperature resistance, high temperature resistance, superior material stability and durability.
- * Large arc design, high sensitivity, high efficiency, sonorous amplification, wide sound coverage and long transmission distance.
- * Internal high-performance magnet, compressed driver head, high sound power output, strong sound penetration.
- * Use high-quality wires to meet long-term full-load use, anti-scalding, good conductivity, and safe use.
- * U-shaped bracket design, 108 ° flexible rotation and adjustment, convenient for users to operate, install and debug.
- * Suitable for outdoor places such as squares, villages and sports fields.

Specification

Model	T-750AZ
Rated power	50W
Max power	100W
Frequency response	200Hz-15KHz
Sensitivity	110dB
Impedance	Black: COM, White: 8Ω
Speaker unit	2.5 inch tweeter driver × 1
Protection class	Ip66
Dimension	282×210×333mm
Weight	2.1Kg
Material	ABS
