

All-in-one ceiling bracket

TV-DZ001

Description

The ceiling mount bracket is designed for modern commercial displays, conference rooms, teaching venues and high-end home theaters. It is a professional ceiling mount bracket system that combines innovative technology and aesthetic design. This product uses high-quality aviation-grade aluminum alloy + solid steel materials, combined with precise CNC processing technology to create a light and solid structure, which not only ensures excellent load-bearing capacity, but also takes into account beauty and durability.
