

Horn speaker

DG-50MUV

Feature

1. Exquisite and fashionable high-end wide-frequency horn, square horn design, high sensitivity, high efficiency, wide sound coverage and long transmission distance;
2. Two-way design achieves extraordinary speech and music reproduction, making it an ideal choice for horn speakers;
3. Anti-UV design for the outer shell to improve the weather resistance of the product and extend its service life;
4. Comes with a U-shaped bracket to facilitate user operation, installation and debugging.

Applicable scenarios:

Suitable for railway stations, bus stations, large squares, etc.

Specification

model	DG-50MUV
Rated Power	50W @8ohm
Maximum Power	100W
impedance	Black:com, White:8Ω
Sensitivity (1W/1M)	99dB ±3dB
Frequency response (-10dB)	80Hz-20KHz
Protection level	Ip66
size	360×255×315mm
weight	4Kg
Material	Anti-UV design
