

## Feature

- 1.Exquisite and stylish high-end wide-band horn, square horn design, high sensitivity, high efficiency, wide sound coverage and long transmission distance ;
- 2.Two-way design achieves extraordinary voice and music reproduction, making it an ideal choice for horn speakers;
- 3.UV is added to the shell to improve the weather resistance of the product and extend its service life;
- 4.It comes with a U-shaped bracket, which is convenient for users to operate, install and debug.

## Applicable scenarios

Suitable for railway stations, bus stations, large squares, etc.

## Specification

model	DG-50M
Rated Power	50W @8ohm
Maximum Power	100W
impedance	Black:com, White:8Ω
Sensitivity (1W/1M)	99dB ±3dB
Frequency response (-10dB)	90- 20kHz
Protection level	Ip66
size	360×255×315mm
weight	4Kg
