

Description

Suitable for various performances, gymnasiums, theaters, multi-function halls and various high-end application places.

Features

- *Uses 2 18-inch ferrite subwoofers .
- *The cabinet is made of 18mm birch imported from Russia, and the surface is treated with polyurea spray paint, which looks high-end and wear-resistant .
- *The sixth-order bandpass structure minimizes the volume and is designed for low-frequency extension of any linear array system and full-range speaker system .
- *Passive subwoofer and high-power custom bass driver provide solid and powerful low-frequency energy, releasing a rich and powerful low-frequency effect, specially used for subwoofer playback in high-demand sound reinforcement systems .
- *It can form a cardioid array to achieve ultra-low directional control .
- *Professional speaker sockets and plugs with good electrical characteristics.

Specification

Type	Subwoofer
Rated power	1600W
Peak power	6400W
Nominal impedance	4Ω
Frequency range (-10dB)	28Hz-150Hz
Sensitivity (±3dB)	108dB (1M/1W)
Maximum sound pressure level	143dB
Low frequency speaker	18"(115mm voice coil) ×2
Dimensions (H x W x D)	680×625×838(mm)
Net weight	80kg
