

EN54 Fireproof PROJECTION SPEAKER

VA-770E

Features

1. Indoor strong directional speaker, unique appearance design, composed of ABS shell, aluminum mesh and metal iron bracket structure.
2. The speaker adopts 6-inch full-range speaker unit design, with large sound radiation angle, full low frequency and clear sound quality.
3. Built-in high-performance copper wire audio transformer, which can reduce the loss caused by impedance in the circuit, and multiple power options.
4. The up and down angles can be flexibly adjusted to facilitate user operation and installation.
5. EN54 certificated by CENOPB LAB, Poland

Specification

Model	VA-770E
Power Taps@100V	7.5W, 15W
Impedance	Black: COM, White: 1.3KΩ, Green: 670Ω
Maximum SPL@1W/1m	112dB ±3dB
Sensitivity@1W/1m	100dB ±3dB
Freq Response	150-14KHz
Coverage angle 500Hz	360°
Coverage angle 1KHz	170°
Coverage angle 2KHz	95°
Coverage angle 4KHz	60°
Dimensions	170×170×270 mm
Weight	1.37 Kg
Speaker unit	6"
