

### Features

- 1.Applicable to: multi-function halls, high-end conference rooms.
- 2.The box is made of 15mm plywood, which is lightweight, wear-resistant and painted, and has dust-proof mesh on the outside.
- 3.The precisely designed crossover optimizes the mid-range performance of the vocal part.
- 4.Multiple screw mounting holes and multiple installation methods.
- 5.Rated power is 150W.
- 6.The peak power is 600W.
- 7.The sensitivity is 95dB/W/M.

### Specification

impedance	8Ω
Maximum sound pressure level (rated/peak)	117dB/123dB
Coverage Angle	(H)80°(V)60°
Frequency Response	65Hz~20KHz
Dimensions (HxWxD)	388x241x241mm
weight	7.8Kg
Treble	3" cone tweeter × 1
bass	8" woofer x 1
