

Vertical network intelligent interactive flat panel

TH-3255PB

Description

The vertical intelligent interactive flat panel is used in medical and nursing places, and is generally installed in the lobby or aisle area. It can display expert information, doctor scheduling information and message sending display, etc.

Feature

- * Support the display of doctor scheduling and expert scheduling.
- * Support information publishing (support video, documents, pictures, etc.), and can perform timing, program insertion, etc.
- * Support background remote upgrade.
- * Support background adjustment of device call voice size, and remote screenshot of display interface.
- * Support setting any time period for timing switch.
- * Support log viewing function.
- * Support the replacement of display templates, which can be customized and modified according to the site environment.

Specification

Screen size	55"
Resolution	1920*1080
Screen ratio	16:9
Brightness	350cd/m ²
Contrast	1200:1
Viewing angle	178°
Refresh rate	120HZ
Touch	Support infrared 20-point touch
Backlight life	50000Hrs
Glass hardness	Explosion-proof tempered glass, Mohs hardness scale 7
Processor	Quad-core 1.8GHz main frequency
Memory	2GB DDR4
Hard disk	16GB
Operating system	Android7.0 or above
Built-in speaker	5W*2(8Ω)
Device interface	USB*2; HDMI*1; 3.5mm*1; TF card slot*1; Rs232*1
Network input (10/100M)	Rj45*1
2.4G WIFI	Support
Input power	100-240V
Operating power consumption	< 180W
Standby power consumption	< 0.5W
Operating temperature	-10 ~ 50°C
Working humidity	10% ~ 80%, relative humidity, no condensation
Size (W*D*H)	749.6*450*1915mm
Wall hole	Horizontal 400*Vertical 400
Net weight	46.9kg
