

Specification

Frequency band	2.4GHz/5GHz
Verification protocol	WPA2-PSK
Upgrade method	Controller USB upgrade screen transmitter
Overall latency	100~200ms
Transmission distance	30m without any obstruction
Display mode	Support extended desktop (Windows 7/8/10)
Touch reverse control	Support 10-point touch feedback (Windows 7/8/10) ; support mouse mode feedback (Mac)
Wireless rate	Transmitter 300Mbps
Wireless transmission protocol	IEEE 802.11 a/g/n/ac
Supported system types	Windows 7/8/10, Apple Mac
Resolution	720P~1080P
Frame rate	Audio and video 18~30 frames
Net weight	88±5g
Product size mm (L*W*H)	182.3mm*73.9mm*19.2mm
Meeting Mode	Host mode: The host can touch the screen list to select a specific PC to transfer the screen Participant mode: When a non-host is currently transferring the screen, whoever presses the transfer button will have control over the transfer.
