

10 Channel DC24V Relay Override Device

T-6211(A)

Features

- * 10 groups of 24V compulsive power supply.
- * Total power output is up to 250W.
- * Single group power output is up to 150W.
- * Support control max 500pcs volume control with compulsive cut function.
- * Support expansion to 300 zones at most.
- * A/B channel alarm inputs and A/B channel alarm outputs.
- * Several units work together after pre-set dip switch.
- * 2 RJ45 communication port with fire alarm system or cascade with another unit.

Specifications

Model	T-6211(A)
Power Supply	~110V-230V 50/60Hz
Power Consumption	220W
Communication Protocol	RS422
Communication Input	RJ45
Communication	4800bps
Dimension	484 x 303 x 88mm
Weight	6.26Kg

Rear Panel
