

## Noise detector

VA-6505

NT1

### Features

- \* Probes can be connected in series or in parallel, and each digital probe can be connected up to 16 or less.
- \* The sampling frequency period can be customized.
- \* Collect the environmental noise on site, process it and send the signal back to the testing host.
- \* Full digital noise collection probe.
- \* Cascading function: one input and one output respectively.
- \* High and low pass filter frequency adjustable function.
- \* Long-distance transmission: up to 3 km.

### Specifications

MIC	Capacitive
Communication mode	Single line route
Noise frequency point filter	4 segments
Output Voltage	1V/600Ω
Frequency Response	80-18KHz(+1/-3dB )
THD	≤1%
Power consumption	4W
Transmission distance	3KM
Power supply	~220V 50Hz
Dimension	240 x 155mm
Weight	0.9Kg
